

Features:

Microphone anti static shock protection

Noise cancelling microphone with adjustable flat metal boom

Acoustic Shock protection & noise reduction receiver

Ultrasonic plastic welding in the mic end cap and boom joint for added strength & durability

The professional choice in headset technology

DH-011T convertible from over the head to over the ear

Flexible and extra light

270° rotating microphone boom arm

Option neckband

Quick disconnect available for Avaya (Lucent) phones

Award Winning Headsets

INCLUDES:

Headset, Over-the-ear hook, Quick Disconnect curly cord, clothing clip, and leatherette ear cushion

ONLY 45 grams

Technical Data:

Electrical Characteristics (EARPHONE)

Impedence - 150ohm
Sensitivity - 94dB ± 3dB at 1KHz 60mV input
Max. input power - 50mW
Frequency range 20Hz - 20KHz
Distortion - less 5% from 300 to 1 KHz

Electrical Characteristics (MIC)

Sensitivity @ 1KHz - 35dB ± 3dB
Impedence - 2.2ohm
Directivity - Noise cancellation microphone
Frequency range - 250Hz to 5KHz ± 6dB
Distortion - less than 3%
S/N/Ration - More than 58dB
